

## Juana's Sock Sizing Chart for CSM Knitting

(Lay sock flat as shown and measure from heel to toe for "flat length")

These are the typical rows that I knit for my socks when I use the Bartlette 100% wool sport weight yarn. When I finish the socks, **I machine wash and machine dry to preshrink the socks.** The socks shrink from ½" to 1 ½" from the smallest to the largest size. The flat length below is approximately the finished length of the sock **AFTER** it has been shrunk. I switch to my 60-slot machine for larger socks to gain extra width in the sock. I use a finer yarn with greater rows/inch for my 72-slot cylinder.

Men's	Women's	Finished Flat Length (After Shrinking)	54-Slot Foot Rows *	60-Slot Foot Rows *
	3	7.50"	39	35
	4	7.75"	42	38
3	5	8.00"	44	40
4	6	8.25"	47	43
5	7	8.75"	52	48
6	8	9.00"	54	50
7	9	9.25"	57	53
8	10	9.50"	-	55
9	11	10.00"	-	60
10	12	10.25"	-	63
11	13	10.50"	-	65
12	14	11.00"	-	70
13		11.25"	-	72
14		11.50"	-	75
15		12.00"	-	80

\* Rows based on 9.8 rows/inch

NOTE:

Foot rows do not include the additional rows that make up the heel and toe.

**54-slot cylinder: heel (20 rows) + toe (14 rows) = 34 rows included in flat length.**

- Example for women's Size 8: (9 inch length) X (9.8 rows/inch) = 88.2 rows – 34 rows (heel & toe) = 54 foot rows

**60-slot cylinder: heel (22 rows) + toe (16 rows) = 38 rows included in flat length.**

- Example for women's Size 8: (9 inch length) X (9.8 rows/inch) = 88.2 rows – 38 rows (heel & toe) = 50 foot rows

**72-slot cylinder: heel (28 rows) + toe (22 rows) = 50 rows included in flat length.**
